

Nemours Children's Health features two free-standing pediatric hospitals:

Nemours Children's Hospital, Delaware, a 220-bed facility located in Wilmington, serves as a Level IV NICU and the only Pediatric Level 1 Trauma Center in the state. For more than 80 years, its world-renowned care, education and research capabilities have healed hundreds of thousands of children and provided training for thousands of pediatric specialists across the U.S.

Nemours Children's Hospital, Florida, a 130-bed facility in Orlando, offers life-changing care for children. Celebrating more than a decade, our system's southern anchor is rapidly improving the quality of care for children throughout the state. All designed by and for families, it creates an environment that promotes children's physical, emotional and spiritual healing. The hospital is an accredited provider of Graduate Medical Education and it's located in the innovation area of Orlando known as Lake Nona Medical City. It's a top American Nurses Credentialing Center RN Nurse Residency Program and partners with the University of Central Florida College of Medicine. Our pediatric residency program celebrated its first class of graduates in 2022.

Well Beyond Medicine®

Beyond Limits

Nemours Children’s is one of the largest and most geographically dispersed health systems in the U.S. with a sole focus on the well-being of children. Our unique system of pediatric care, research and education is redefining the meaning of “health” and the role that a health system plays in supporting families and communities well beyond medicine.

We care for **half a million children annually** within our walls and work to address the social determinants of health that impact millions of other children who will never even enter our doors.

2022 Fast Facts

1.9 million patient encounters

20+ federal policy-related briefs, white papers and presentations

250 million visitors to KidsHealth.org

\$56 million funding 288 research studies & 210 clinical trials

13 value-based contracts covering 192,200 children

Today, we employ **8,600 associates** across four states, representing:
