RESEARCH OPPORTUNITIES

The University of Michigan Department of Pediatrics ranks in the top 10 nationally in terms of NIH funding, maintaining a portfolio of research awards in excess of \$25 million. The department hosts a two-day research symposium annually with opportunities for both poster and platform presentations.

Faculty have access to a wide range of mentors and collaborators within the department, medical school, and university to pursue interests in basic science, translational, clinical, and health services research as well as education and quality improvement.

Research & mentoring opportunities include:

- Core research facilities for both basic and clinical research
- Statistical and data collection support
- Intramural funding opportunities
- Faculty development launch committees
- Grant review programs
- Clinical research design and statistical analysis
- Educational leadership
- K-award training
- R-award boot camps
