

## PEDIATRIC PRIMARY AND SPECIALTY CARE

At our UF Health Pediatrics primary care and specialty practices, we offer a comprehensive team approach to help you manage your child's care.

We provide children with some of the most advanced resources and technologies, including access to UF Health Shands Children's Hospital, ranked No. 1 in Florida and among the top children's hospitals in the southeastern United States, according to the U.S. News & World Report 2022-2023 rankings.

### Scheduling a primary care visit

When scheduling your first appointment, your child will be enrolled with one of our pediatricians, who will see your child for all well-child visits.

We ask that you arrive 15 minutes before your scheduled appointment time. You may need to fill out paperwork or update your records.

Also, please notify us of any changes in your address, phone number or insurance carrier.

For pediatric specialty appointments, please speak with your child's pediatrician first.

### After-hours calls and appointments

For urgent questions about a sick child when offices are closed, please call UF Health Pediatrics After Hours at 352.265.0724.

UF Health Pediatrics After Hours is open 365 days a year and offers evening and weekend **appointment-only** services for patients who receive care from a UF Health or other participating Gainesville pediatrician.

UF Health Pediatrics After Hours is for urgent primary care needs when your pediatrician's office is closed. Well-child care, physicals, vaccinations and follow-up visits are not offered through this program.

Please visit [UFHealth.org/pediatrics-after-hours](https://UFHealth.org/pediatrics-after-hours) and for a list of participating practices. In the case of an emergency, the UF Health Shands Pediatric E.R. is available 24/7.

### Payment

We accept many types of insurance, as well as several Medicaid plans. Our financial representatives are available to assist you with any insurance questions you may have.

If you are responsible for paying all or a portion of your child's health care costs, payment is expected at the time of your visit.
