

TRANSFORMING PEDIATRIC HEALTHCARE

MI⁴ is a unique model for **accelerating** pediatric health, creating end-to-end solutions, and **transforming** ideas into value for our patients and families. MI⁴ combines Intelligence, Information, Investigation and Innovation which yields an exponential return from the **synergy** of these disciplines to bring the greatest **impact** to the families we serve and **joy in work** for our clinicians and associates.

CHOC on the Global Stage

Novel societies and initiatives launched through MI⁴

ISPI

International Society for Pediatric Innovation

ACAIM/PCAIM

Alliance of Centers for AI in Medicine (+Peds)

ABAIM

American Board for AI in Medicine

Pediatric Moonshot

BevelCloud technology linking data for AI applications

MIS

Medical Intelligence Society

AIMed

HealthSoCal.AI

CHOC's Culture of Innovation

- Human-centered design thinking education
- Innovation Rounds, Office Hours & iClinic
- Multi-center collaborative projects
- Innovation events and work-around challenges
- Innovator Spotlights
- Monthly MI1/2 meetings
- Extended Reality for education
- Medical device development
- Co-creation with industry partners
- AI algorithm development
- Medical Start-up evaluation & Pilots
- Global society meetings and events

Summer Internship

Unique medical intelligence & innovation learning experience for tomorrow's clinicians

1000

Graduated since 2014

65+

Instructional hours per week over 8 weeks

97%

Graduates actively pursuing healthcare careers

150+

Clinical mentors

SHARON DISNEY LUND

Medical Intelligence, Information,
Investigation & Innovation Institute
