

Project Firstline: AAP Infection Prevention and Control Virtual Training Center

Project Firstline aims to educate all US health care workers with the foundational understanding of infection prevention and control (IPC) to protect the nation from infectious disease threats. The AAP represents the pediatric perspective in this multi-partner initiative led by the CDC.

The AAP serves as a virtual training center with accurate and evidence based knowledge and strategies to prevent infections in health care settings in order to protect the health of children and families.

Project Firstline is a national collaborative led by the US Centers for Disease Control and Prevention (CDC) to provide infection control training and education to frontline healthcare workers and public health personnel. AAP is proud to partner with Project Firstline, as supported through Cooperative Agreement CDC-RFA-OT18-1802. CDC is an agency within the Department of Health and Human Services (HHS). The contents of this program do not necessarily represent the policies of CDC or HHS and should not be considered an endorsement by the Federal Government.
