RESEARCH OPPORTUNITIES

The University of Michigan Department of Pediatrics ranks in the top 10 nationally in terms of NIH funding, maintaining a portfolio of research awards in excess of \$25 million. The department hosts a two-day research symposium annually with opportunities for both poster and platform presentations.

Fellows have access to a wide range of mentors within the department, medical school, and university to pursue scholarly interests. These may include topics in:

- Basic science
- Translational
- Clinical
- Health services
- Education

Research support system includes:

- Core research facilities for both basic and clinical research
- Statistical and data collection support
- Intramural funding opportunities
- Grant review programs

Post-fellowship training leading to a Master's Degree is possible in:

- Health Services Research
- Clinical Research Design and Statistical Analysis
- Health Professional Education
