

# Laerdal

helping save lives

## Laerdal Scenario Cloud

Expand your curriculum. Improve outcomes.

Laerdal Scenario Cloud is a digital library of hundreds of expert-developed scenarios from clinical professionals. Scenario Cloud provides a productivity boost, as you spend less time authoring content and more time improving educational outcomes. You can standardize educational practices with pre-programmed content mapped to clinical guidelines.

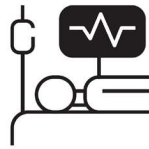

### Free 90-day trial

Try out Scenario Cloud to see how it can help boost your productivity.

### Expert developed scenarios

Work with evidence-based scenarios from clinical professionals like the National League for Nursing, American Academy of Pediatrics, American Heart Association and others.

### Complete content package

Start with a suite of ready-made materials, including learning objectives, a detailed case narrative, printable patient charts, setup and debriefing guides and more.

### Run sessions seamlessly

Save scenarios into Collections on Scenario Cloud, and seamlessly synchronize content to LLEAP and SimPad for convenient access. No need to manually port on USB sticks.

## Get Started with Laerdal Scenario Cloud

With an annual license you get access to hundreds of scenarios, that are always up to date and meet the latest clinical guidelines.
